**BACTERIAS BUSTERS PRO-EXECUTIVE SUMMARY FOR SUPPORTING DOCUMENTS FOR REIMBURSEMENT:**

The Clarksburg Water Board, located in Clarksburg WV, is a municipal corporation that was created by a particular act of legislation in 1909 and charged with the duty and responsibility of providing an ample supply of pure and wholesome water to retail and wholesale customers in Harrison county. CWB has developed a program named water watchers that ask the community to protect the critical water resources from potential terrorist or criminal related tampering. Bacteria Busters Pro has taken an oath to not only help support in this endeavor but bring our services to help provide protection for the staff and customers that frequent the facility during the COVID 19 Pandemic. Bacteria Busters has a track record of delivering disinfection services to other facilities that once had outbreaks but coincidentally have zero up to date after contracting our services. We cannot guarantee there will be any outbreaks. Still, by facts and science, we have shown we can lower the chance of infection and eliminate various pathogens to 99.9999 %, the highest kill log available on the market today. Under the Coronavirus relief fund outlined in section 601 (d) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"). A. Eligible Expenditures number 41 States this question: " May fund payments be used for expenditures necessary to prepare for a future COVID-19 outbreak?. Answer: "Fund payments may be used only for expenditures necessary to address the current COVID-19 public health emergency. For example, a State may spend Fund payments to create a reserve of personal protective equipment or develop increased intensive care unit capacity to support regions in its

jurisdiction not yet affected, but likely to be impacted by the current COVID-19 Pandemic, regarding line item #41.- Bacteria Busters Pro services provide the necessary proactive services to avoid and prepare for a future COVID-19 outbreak. By implementing our back to work plan for success, the model ensures your department is operating above the critical “standard of care” needed for providing a “SAFE ZONE “ for its employees and senior customers that frequent the building for day to day operations. Many of the customers in Harrison county have no access or knowledge in the operations to the on-line website to pay their water bills. Therefore, they visit the CWB daily to make their payments in person as they have historically been accustomed to. Bacteria Busters Pro services goal is to provide a safe environment to the staff and customers, all while helping to develop reassurance to the public and staff that the department is providing the best practices to continue to move forward through the Pandemic and avoiding severe outbreaks that have proven to be fatal for the hi risk populations.

#### **SERVICES:**

Bacteria Busters Pro is organized from a group of diverse infectious disease specialists partnered with medical consultants experienced in infectious disease and the current technology we use. Bacteria Busters Pro provides custodial services, including ULV preventative and disinfecting fogging services, with a registered and approved EPA chemical through electrostatic hardware. EPA registered and approved chemical id 84526-6 (ATTACHED). Bacteria Busters Pro will provide a detailed walk through for the discovery of critical information regarding critical COVID demographics including but not limited to: hi traffic areas, frequency and of staff travel, contact tracing recommendations per CDC guidelines. After acquiring the companies’ respective information, Bacteria Busters Pro will develop a custom service plan to not only reduce the spread of Bacteria, Viruses, and Fungi within the scheduled areas but lower the chance of an outbreak of infection. Bacteria Busters will provide a proposal and references with all data and proof of performance regarding current customers under contract.
